about us

The people of Lasco have spent the past four decades perfecting our craft. From our most elite acrylic jetted tubs to the Lascoat bath and shower workhorses that first made us famous in the building trade, homeowners prize their Lasco Bathware fixtures.

In a highly competitive industry, we've set ourselves apart by refusing to compromise our standards, all while answering to the call for performance, value and maximum choice. Paying scrupulous attention to design, engineering and material details, Lasco Bathware has earned the trust of architects, designers, developers, contractors and consumers. Outstanding service, timely nationwide deliveries and comprehensive warranties further attest to our industry leadership.

Today, one in four American homes features Lasco Bathware because our products perform exactly as we say they will. And in today's world of diminishing standards, people find that simply refreshing.
